

# ICONnect

May/June 2010

Download ICONnect directly from our website each month  
[www.iconsoftware.com.au](http://www.iconsoftware.com.au)

This month ICON clearly demonstrated that we are recognised as one of the leading providers in Local Government.

Two Councils have made the switch to ICON from their current e-Planning provider. Support and solution road map were key factors in selecting the ICON PlanningXchange suite.

You will note below that ICON has been invited to speak at the "Rethinking DCP's" seminar on the 22nd, please email me or click on the link on our website for more details.

*Marie Eedy - CEO, ICON*

## ALGA—National General Assembly

**A big thank you** to all who came and said hello at ALGA this year. ICON, once again, took a major sponsorship at the event providing us with the opportunity to present during the main sessions. This year Malcolm Ryan from Warringah Council took to the stage, firstly to talk about the **Warringah Community Consultation** process called "Talk of the Town" and secondly to demonstrate the use of the ICON software solution PlanningXchange.

Malcolm's presentation certainly provoked a good response around online community consultation—**ICON's PLAN** module allows your community to respond directly to any document that is on public exhibition via your website—Warringah provided their Draft LEP and DCP in this way. This ensures that all comments are captured against the relevant topics, an immediate response is sent to the contributor and comments can be viewed online. Check out Warringah's website for more details—[www.warringah.nsw.gov.au](http://www.warringah.nsw.gov.au) and follow the links to e-services.

ICON has already confirmed our presence at next year's event—see you there!!

## Events and News

ICON has been invited to speak at the "**Rethinking DCP's**" seminar to be held in Sydney on the **22nd July**. On the agenda with ICON will be industry representatives such as Sam Haddad. **Contact [seminars@neerg.com.au](mailto:seminars@neerg.com.au) for more info.**

**August 20th...**See you at the Southern Councils Group meeting at Bombala. ICON is delighted to be the sponsor of this event.

## Rockdale and Taree migrate to ICON PlanningXchange

**ICON** welcomes Rockdale and Taree to our customer base.

Rockdale has selected all of the PlanningXchange modules—implementing **TRACK and REPORT** this month. **PLAN** is next on the agenda to ensure the new planning scheme can do on public exhibition in September 2010.

Taree have implemented both **TRACK and REPORT** for Pathway, TRIM and Sun Systems.

## Townsville to go live

Townsville is on schedule to go live with **TRACK, REPORT and PLAN** on the 30th June, 2010.

Part of the HAF eDA project funded by FASCHIA, Townsville have done a sterling job in bringing together the planning and IT departments to deliver the project on time and on budget. Well done Jo and the team!

# REPORT<sup>®</sup>

**REPORT<sup>®</sup> negates the need to build expensive data warehouses or extract data to 3rd party reporting tools.**

**REPORT<sup>®</sup>** works with the most popular local government solutions such as **INFOR Pathway**, **Technology One Rating and Property**, **Civica Authority**, **TRIM**, **DataWorks**, **Hansen**, **FinanceOne** and many more. Your staff now have access to data from multiple systems, presented via the **REPORT<sup>®</sup>** web interface in a logical way, making decision support easier.

## Why ICON REPORT?

- works with all of the standard Local Government solutions
- access to data is immediate, accurate and secure
- reports can incorporate multiple data sources across departments
- planning, environmental, finance, assets, rating, heritage and more
- dashboards and statistics come as standard

**“EASY TO USE, EASY TO IMPLEMENT WITH IMMEDIATE BENEFITS”**
